CC&L Global Market Neutral II Fund

Notes to Financial Statements – Fund Specific Information
June 30, 2024 and 2023 (Unaudited)

These fund specific notes shall be read in conjunction with the accompanying notes to the financial statements, which are an integral part of these financial statements. These fund specific notes can be referenced to the accompanying notes by the corresponding note number. Since they are supplemental to the accompanying notes, there may not be a corresponding specific note to match every accompanying note.

Reporting entity and investment objective (Note 1)

The CC&L Global Market Neutral II Fund (formerly CC&L Alternative Global Equity Fund) (the “Fund”) is an open-ended unit trust established under the laws of Ontario and is governed by the Declaration of Trust dated May 1, 2012, as amended from time to time. The Fund commenced operations on February 15, 2019. The address of the Fund’s registered office is 1400 – 130 King St. West, P.O. Box 240, Toronto, Ontario, Canada, M5X 1C8. On March 23, 2023, the name of the Fund changed from CC&L Alternative Global Equity Fund to the CC&L Global Market Neutral II Fund.

Concurrent with the name change referenced above, there were changes to the investment objective of the Fund. The investment objective of the Fund is to earn a positive absolute and attractive risk adjusted return over the long term while demonstrating low correlation with, and lower volatility than, traditional equity markets by investing in securities and derivative contracts and by employing equity hedge based and equity market neutral strategies.

Fair value of financial instruments (Note 5)

Notes to Financial Statements – Fund Specific Information

June 30, 2024 and 2023 (Unaudited)

Taxation of the Fund (Note 7)

As at December 31, 2023, the Fund had unused capital losses of \$759,913 (December 31, 2022 - \$759,913), which may be carried forward indefinitely to reduce future realized capital gains. There were \$Nil (December 31, 2022 - \$Nil) unused non-capital losses available for tax purposes.

During the period, withholding tax rates were between 0% and 35% (2023 - between 0% and 35%).

Related party transactions and other expenses (Note 8)

Management fees

The Fund pays a management fee, which is accrued daily and paid monthly. The annual management fee rates, exclusive of taxes, are 1.90% for Series A and 0.90% for Series F. No management fees are paid by the Fund with respect to Series I units, but are negotiable and paid directly by the unitholder to the Manager and will not exceed the management fee payable on Series A units of the Fund.

Performance fees

The Fund will pay a quarterly incentive fee (a "Performance Fee") to the Manager, calculated and accrued daily. The Performance Fee is 20% of the net positive return of the Series for the Performance Period, subject to a perpetual high water mark. The Performance Fee is applicable to Series A and Series F units. Unitholders of Series I units may negotiate a performance fee to be paid by the investor directly to the Manager.

Units held by related parties

Connor, Clark & Lunn Financial Group Investments Inc. ("CCLFGII") and Connor, Clark & Lunn Financial Group Ltd. Financial risk management (Note 10)

Currency risk

The tables below summarize the Fund's exposure to foreign currencies as at June 30, 2024 and December 31, 2023 in Canadian dollars. Amounts shown are based on the fair value of monetary assets (including cash and short-term investments) as well as the underlying principal amounts of forward foreign currency contracts, as applicable.

The tables also illustrate the potential impact on net assets attributable to holders of redeemable units as a result of a 5% change in these currencies relative to the Canadian dollar, with all other factors remaining constant. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Interest rate risk

As at June 30, 2024 and December 31, 2023, interest rate risk was negligible as the Fund had no significant exposure to long-term interest-bearing investments.

Other price risk

As at June 30, 2024 and December 31, 2023, the Fund was exposed to other price risk primarily through its equity investments that trade on stock exchanges. Substantially all of the Fund's net assets attributable to holders of redeemable units were exposed to other price risk because of exposure to market fluctuations (not caused by other factors mentioned previously). If stock exchange prices had increased or decreased by 10%, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately \$2,969,000 (December 31, 2023 - \$1,085,000). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Credit risk

As at June 30, 2024 and December 31, 2023, credit risk arising from debt instruments was negligible as the Fund had no significant exposure to debt-based securities. The Fund was exposed to credit risk through derivative instruments. The unrealized gains on contractual obligations with counterparties were 4.6% (December 31, 2023 - 4.6%) of the Fund's net assets attributable to holders of redeemable units. All counterparties to the derivative instruments had a

credit rating of “A” or better (as determined from a composite of bond rating services such as Standard & Poor’s, Moody’s and Dominion Bond Rating Services).

Securities lending (Note 12)

For the periods ended June 30, 2024 and 2023, securities lending income was as follows:

	2024 (\$)	2023 (\$)
Gross securities lending income	6,088	1,502
Securities lending charges	(1,207)	(297)
Net securities lending income	4,881	1,205
Withholding taxes on securities lending income	(266)	(82)
Net securities lending income received by the Fund	4,615	1,123

Securities lending charges represented 19.8% (2023 - 19.8%) of the gross securities lending income, all of which was paid to the Fund’s custodian.

The following table summarizes the securities loaned and collateral held as at June 30, 2024 and December 31, 2023.

	2024 (\$000's)	2023 (\$000's)
Securities loaned	3,091	2,353
Collateral received	3,246	2,471
Collateral percentage of securities loaned	105%	105%

Leverage and borrowing (Note 13)

During the period ended June 30, 2024 and year ended December 31, 2023, the Fund’s aggregate exposure to leverage ranged from 137.2% to 158.1% (2023 - 72.2% to 208.0%) of the Fund’s Net Asset Value (“NAV”). The aggregate exposure range to leverage was within the expected range as outlined in the simplified prospectus. As at June 30, 2024, the Fund’s aggregate exposure was 145.5% (December 31, 2023 - 146.1%) of the Fund’s NAV. The primary sources of leverage were short positions in equity securities, short equity swap contracts and cash borrowing.

A component of the Fund’s leverage is cash borrowing. Such facilities are repayable on demand. during the period ended June 30, 2024 and year ended December 31, 2023, the Fund’s range of cash borrowing was \$1,591 to \$3,997,284 (2023 - \$Nil to \$15,765,279) with an average interest rate of 5.68% (2023 - 5.36%). As at June 30, 2024, cash borrowing represented 1.4% (December 31, 2023 - 0.0%) of the Fund’s NAV.

CC&L Global Long Short Fund

Notes to Financial Statements – Fund Specific Information
June 30, 2024 and 2023 (Unaudited)

These fund specific notes shall be read in conjunction with the accompanying notes to the financial statements, which are an integral part of these financial statements. These fund specific notes can be referenced to the accompanying notes by the corresponding note number. Since they are supplemental to the accompanying notes, there may not be a corresponding specific note to match every accompanying note.

Reporting entity and investment objective (Note 1)

The CC&L Global Long Short Fund (formerly CC&L Alternative Canadian Equity Fund) (the “Fund”) is an open-ended unit trust established under the laws of Ontario and is governed by the Declaration of Trust dated May 1, 2012, as amended from time to time. The Fund commenced operations on February 15, 2019. The address of the Fund’s registered office is 1400 – 130 King St. West, P.O. Box 240, Toronto, Ontario, Canada, M5X 1C8. On March 23, 2023, the name of the Fund changed from CC&L Alternative Canadian Equity Fund to the CC&L Global Long Short Fund.

Concurrent with the name change referenced above, there were changes to the investment objective of the Fund. The investment objective of the Fund is to provide long term capital appreciation and attractive risk adjusted returns over the long term by actively investing in a portfolio of securities and derivative contracts and by employing equity long short strategies.

Related party transactions and other expenses (Note 8)

Management fees

The Fund pays a management fee, which is accrued daily and paid monthly. The annual management fee rates, exclusive of taxes, are 2.00% for Series A and 1.00% for Series F. No management fees are paid by the Fund with respect to Series I units; but are negotiable and paid directly by the unitholder to the Manager and will not exceed the management fee payable on Series A units of the Fund.

Performance fees

The Fund will pay a quarterly incentive fee (a "Performance Fee") to the Manager, calculated and accrued daily. The Performance Fee is 20% of the net outperformance over the Hurdle, subject to a perpetual high water mark. The Hurdle is 4.00% per annum. The Performance Fee is applicable to Series A and Series F units. Unitholders of Series I units may negotiate a performance fee to be paid by the investor directly to the Manager.

Units held by related parties

Connor, Clark & Lunn Financial Group Investments Inc. ("CCLFGII") and Connor, Clark & Lunn Financial Group Ltd. ("CCLFGL"), companies related to the Manager through common ownership, hold units of the Fund. At June 30, 2024, CCLFGII held 975,715 Series I units with a total fair value of \$12,377,729 (December 31, 2023 - 975,715 Series I units with a total fair value of \$10,733,063). At June 30, 2024, CCLFGL held 6,867 Series A units, 7,047 Series F units and 7,380 Series I units with respective total fair values of \$81,725, \$85,749 and \$93,625 (December 31, 2023 - 6,867 Series A units, 7,047 Series F units and 7,380 Series I units with respective total fair values of \$73,372, \$76,887 and \$81,185).

Brokerage commissions and other transaction costs (Note 9)

The Fund paid \$55,616 (2023 - \$19,681) in brokerage commissions and other transactions costs for portfolio transactions during the period. The soft dollars paid during the period were \$9,481 (2023 - \$4,039).

Financial risk management (Note 10)

Currency risk

The tables below summarize the Fund's exposure to foreign currencies as at June 30, 2024 and December 31, 2023 in Canadian dollars. Amounts shown are based on the fair value of monetary assets (including cash and short-term investments) as well as the underlying principal amounts of forward foreign currency contracts, as applicable.

The tables also illustrate the potential impact on net assets attributable to holders of redeemable units as a result of a 5% change in these currencies relative to the Canadian dollar, with all other factors remaining constant. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Interest rate risk

As at June 30, 2024 and December 31, 2023, interest rate risk was negligible as the Fund had no significant exposure to long-term interest-bearing investments.

Other price risk

As at June 30, 2024 and December 31, 2023, the Fund was exposed to other price risk primarily through its equity investments that trade on stock exchanges. Substantially all of the Fund's net assets attributable to holders of redeemable units were exposed to other price risk because of exposure to market fluctuations (not caused by other factors mentioned previously). If stock exchange prices had increased or decreased by 10%, with all other factors remaining constant, net assets attributable to holders of redeemable units would have decreased or increased by approximately \$526,000 (December 31, 2023 - \$219,000). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Credit risk

As at June 30, 2024 and December 31, 2023, credit risk arising from debt instruments was negligible as the Fund had no significant exposure to debt-based securities. The Fund was exposed to credit risk through derivative instruments. The unrealized gains on contractual obligations with counterparties were 5.5% (December 31, 2023 - 9.6%) of the

CC&L Global Long Short Fund

Fund's net assets attributable to holders of redeemable units. All counterparties to the derivative instruments had a credit rating of "A" or better (as determined from a composite of bond rating services such as Standard & Poor's, Moody's and Dominion Bond Rating Services).

Securities lending (Note 12)

For the periods ended June 30, 2024 and 2023, securities lending income was as follows:

	2024 (\$)	2023 (\$)
Gross securities lending income	472	2,305
Securities lending charges	(94)	(459)
Net securities lending income	378	1,846
Withholding taxes on securities lending income	(7)	(45)
Net securities lending income received by the Fund	371	1,801

Securities lending charges represented 19.9% (2023 - 19.9%) of the gross securities lending income, all of which was paid to the Fund's custodian.

The following table summarizes the securities loaned and collateral held as at June 30, 2024 and December 31, 2023.

	2024 (\$000's)	2023 (\$000's)
Securities loaned	84	125
Collateral received	88	131
Collateral percentage of securities loaned	105%	105%

Leverage and borrowing (Note 13)

During the period ended June 30, 2024 and year ended December 31, 2023, the Fund's aggregate exposure to leverage ranged from 62.3% to 128.2% (2023 - 63.2% to 141.5%) of the Fund's Net Asset Value ("NAV"). The aggregate exposure range to leverage was within the expected range as outlined in the simplified prospectus. As at June 30, 2024, the Fund's aggregate exposure was 120.4% (December 31, 2023 - 123.8%) of the Fund's NAV. The primary sources of leverage were short positions in equity securities, short equity swap contracts and cash borrowing.

A component of the Fund's leverage is cash borrowing. Such facilities are repayable on demand. during the period ended June 30, 2024 and year ended December 31, 2023, the Fund's range of cash borrowing was \$Nil to \$1,559,167 (2023 - \$Nil to \$6,661,984) with an average interest rate of 5.80% (2023 - 5.43%). As at June 30, 2024, cash borrowing represented 0.0% (December 31, 2023 - 0.0%) of the Fund's NAV.

Related party transactions and other expenses (Note 8)

Management fees

The Fund pays a management fee, which is accrued daily and paid monthly. The annual management fee rates, exclusive of taxes, are 1.45% for Series A and 0.45% for Series F. No management fees are paid by the Fund with respect to Series I units; but are negotiable and paid directly by the unitholder to the Manager and will not exceed the management fee payable on Series A units of the Fund.

Performance fees

The Fund will pay a quarterly incentive fee (a “Performance Fee”) to the Manager, calculated and accrued daily. The Performance Fee is based on the performance of a Series of the Fund relative to the performance of the Fund’s Hurdle and is equal to 15% of the amount by which the Fund outperforms the Hurdle. The Performance Fee is applicable to Series A and Series F units. Unitholders of Series I units may negotiate a performance fee to be paid by the investor directly to the Manager.

The FTSE Canada 91 Day T-Bill Index return is the Hurdle for the Fund.

Units held by related parties

The Fund paid \$13,817 (2023 - \$6,260) in brokerage commissions and other transactions costs for portfolio transactions during the period. The soft dollars paid during the period were \$Nil (2023 - \$Nil).

Financial risk management (Note 10)

Currency risk

The tables below summarize the Fund’s exposure to foreign currencies as at June 30, 2024 and December 31, 2023 in Canadian dollars. Amounts shown are based on the fair value of monetary assets (including cash and short-term investments) as well as the underlying principal amounts of forward foreign currency contracts, as applicable.

The tables also illustrate the potential impact on net assets attributable to holders of redeemable units as a result of a 5% change in these currencies relative to the Canadian dollar, with all other factors remaining constant. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Interest rate risk

As at June 30, 2024 and December 31, 2023, the Fund had direct exposure to interest rate risk through its investment in fixed income and short-term debt and interest rate derivative instruments. The tables below summarize the Fund's exposure to interest rate risk as at June 30, 2024 and December 31, 2023. Amounts shown are based on the carrying values of debt instruments and exclude cash and preferred shares, as applicable.

As at June 30, 2024:

Debt Instruments Grouped by Maturity Date	Total \$	% of Net Assets
Less than 1 year	6,379,907	22.6

Notes to Financial Statements – Fund Specific Information
June 30, 2024 and 2023 (Unaudited)

These fund specific notes shall be read in conjunction with the accompanying notes to the financial statements, which are an integral part of these financial statements. These fund specific notes can be referenced to the accompanying notes by the corresponding note number. Since they are supplemental to the accompanying notes, there may not be a corresponding specific note to match every accompanying note.

General information (Note 1)

The PCJ Absolute Return II Fund (the “Fund”) is an open-ended unit trust established under the laws of Ontario and is governed by the Declaration of Trust dated May 1, 2012 (the Declaration of Trust), as amended from time to time. The Fund commenced operations on March 5, 2021. The address of the Fund’s registered office is 1400 – 130 King St. West, P.O. Box 240, Toronto, Ontario, Canada, M5X 1C8.

The Manager has retained PCJ Investment Counsel Ltd. (“PCJ”), to act as portfolio manager (the "Investment Manager") for the Fund. PCJ is part of Connor, Clark & Lunn Financial Group Ltd. (“CC&LFG”), of which the Manager is an affiliate.

The investment objective of the Fund is to earn positive absolute and attractive risk adjusted returns while demonstrating low correlation with, and lower volatility than, traditional long-only investment portfolios. The Fund will engage in short selling, cash borrowing and use derivatives in order to meet its investment objective.

June 30, 2024 and 2023 (Unaudited)

Taxation of Fund (Note 7)

As at December 31, 2023, the Fund had unused capital losses of \$1,143,830 (December 31, 2022 - \$1,208,368), which may be carried forward indefinitely to reduce future realized capital gains. There were \$Nil (December 31, 2022 - \$32,595) unused non-capital losses available for tax purposes.

During the period, withholding tax rates were between 0% and 35% (2023 - between 0% and 35%).

Related party transactions and other expenses (Note 8)

Management fees

The Fund pays a management fee, which is accrued daily and paid monthly. The Manager receives its management fees for providing or arranging for portfolio management, selecting service providers to the Fund, arranging for all necessary regulatory documents, including those required to offer the Fund's units, marketing the Fund, supervising the operations of the Fund, and making use of controls and monitoring for compliance.

The annual management fee rates, exclusive of taxes, are 2.00% for Series A and 1.00% for Series F.

No management fees are paid by the Fund with respect to Series I, but are negotiable and paid directly by the unitholder to the Manager and will not exceed the management fee payable on Series A units of the Fund.

Performance fees

With respect to Series A and F units, the Fund may pay a quarterly incentive fee (a “Performance Fee”) to the Investment Manager, calculated and accrued daily, and payable as of the last business day of each calendar quarter, or at other times (e.g. upon the dissolution of the Fund), equal to 20% of the appreciation in the net asset value per unit of each series over and above the High Water Mark for that particular series.

The “High Water Mark” per unit of any series is equal to the product of (i) the higher of the net asset value per unit (a) at which such series was issued or (b) as of the end of the Performance Period for which a Performance Fee was last paid with respect to such series (after deduction of all administrative expenses including Management Fees and Performance Fees); and (ii) the sum of one (1) plus the cumulative Hurdle Rate return since such net asset value of the series (i.e., (a) or (b) above, as applicable) was calculated.

The “Hurdle Rate” for Series A and F units of the Fund is 2.0% per annum.

The Performance Fee for the Fund is only payable when the net asset value per unit of Series A and F units of the Fund exceeds the High Water Mark on the calculation date.

Unitholders of Series I may negotiate a performance fee to be paid by the investor directly to the Manager.

Related party transactions

Connor, Clark & Lunn Financial Group Ltd. (“CCLFGL”), a company related to the Manager through common ownership, hold units of the Fund. At June 30, 2024, CCLFGL held 5,000 Series A units, 5,000 Series F units and 440,000 Series I units with respective total fair values of \$49,945, \$51,639 and \$4,725,336 (December 31, 2023 - 5,000 Series A units, 5,000 Series F units and 440,000 Series I units with respective total fair values of \$47,529, \$48,899 and \$4,451,413)

Brokerage commissions and other transaction costs (Note 9)

The Fund paid \$85,656 (2023 - \$73,162) in brokerage commissions and other transactions costs for portfolio transactions during the period. The soft dollars paid during the period were \$Nil (2023 - \$Nil).

Financial risk management (Note 10)

Currency risk

The tables below summarize the Fund’s exposure to foreign currencies as at June 30, 2024 and December 31, 2023 in Canadian dollars. Amounts shown are based on the fair value of monetary assets (including cash and short-term investments) as well as the underlying principal amounts of forward foreign currency contracts, as applicable.

The tables also illustrate the potential impact on net assets attributable to holders of redeemable units as a result of 5% change in these currencies relative to the Canadian dollar, with all other factors remaining constant. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

As at June 30, 2024:

Interest rate risk

As at June 30, 2024 and December 31, 2023, the Fund had direct exposure to interest rate risk through its investment in fixed income and short-term debt. The tables below summarize the Fund's exposure to interest rate risk as at June 30, 2024 and December 31, 2023. Amounts shown are based on the carrying values of debt instruments and exclude cash and preferred shares.

As at June 30, 2024:

Debt Instruments Grouped by Maturity Date	Total	% of Net Assets
Less than 1 year	46,963,613	91.9
1 to 3 years	724,588	1.4
Total	47,688,201	93.3

As at December 31, 2023:

Debt Instruments Grouped by Maturity Date	Total	% of Net Assets
Less than 1 year	60,218,952	105.7
1 to 3 years	721,783	1.3
Total	60,940,735	107.0

If prevailing interest rates had been raised or lowered by 1.0%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets attributable to holders of redeemable units would have decreased or increased by approximately \$59,000 (December 31, 2023 - \$53,000). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Other price risk

As at June 30, 2024, approximately 6.2% (December 31, 2023 - 7.8%) of the Fund's net assets were exposed to other price risk because of exposure to market fluctuations (not caused by other factors mentioned previously). If stock prices of the portfolio held increased or decreased by 10%, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately \$318,000 (December 31, 2023 - \$443,000). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Credit risk

The tables below summarize the Fund's exposure to credit risk as at June 30, 2024 and December 31, 2023. Amounts shown are based on the carrying values of debt instruments.

Investments in structured entities (Note 11)

As at June 30, 2024, the carrying values of exchange traded funds included in Investments and Investments sold short in the Statements of Financial Position were \$Nil and \$13,780,257 respectively (December 31, 2023 - \$Nil and \$9,866,092 respectively). The change in fair value of exchange traded funds is included in the Statements of Comprehensive Income in Net change in unrealized appreciation (depreciation) of investments.

Leverage (Note 13)

During the period ended June 30, 2024 and year ended December 31, 2023, the Fund's aggregate exposure to leverage ranged from 79.9% to 117.5% (2023 - 59.1% to 91.2%) of the Fund's Net Asset Value ("NAV"). The aggregate exposure range to leverage was within the expected range as outlined in the simplified prospectus. As at June 30, 2024, the Fund's aggregate exposure was 89.4% (December 31, 2023 - 89.4%) of the Fund's NAV. The primary sources of leverage were short positions in equity securities and cash borrowing.

A component of the Fund's leverage is cash borrowing. Such facilities are repayable on demand. during the period ended June 30, 2023 year ended December 31, 2023, the Fund's range of cash borrowing was \$Nil to \$13,722,744 (2023 - \$Nil to \$10,283,034) with an average interest rate of 5.57% (2023 - 5.17%). As at June 30, 2024, cash borrowing represented 0.9% (December 31, 2023 - 15.0%) of the Fund's NAV.

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

These notes shall be read in conjunction with the accompanying fund specific notes which are an integral part of these financial statements.

1 General information

The investment activities of the below funds, collectively the “Funds”, are managed by Connor, Clark & Lunn Funds Inc. (the “Manager”):

- CC&L Global Market Neutral II Fund
- CC&L Global Long Short Fund
- CC&L Alternative Income Fund
- PCJ Absolute Return II Fund

The Trustee of the Funds is RBC Investor Services Trust.

The financial statements were authorized for issue by the Manager on August 26, 2024.

2 Basis of presentation

(a) Statement of compliance:

These financial statements have been prepared in compliance with IFRS Accounting Standards, including International Accounting Standard 34, “Interim Financial Reporting”. The Financial Statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivatives) at fair value through profit and loss.

(b) Functional and presentational currency:

These financial statements are presented in Canadian dollars, which is the Funds' functional currency.

3 Material accounting policy information

The Funds have consistently applied the following accounting policies to all periods presented in these financial statements.

(a) Financial instruments:

The Funds have determined that they meet the definition of an ‘investment entity’. An investment entity is an entity that: obtains funds from one or more investors for the purpose of providing them with investment management services; commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measures and evaluates the performance of substantially all of its investments on a fair value basis. The significant judgment that the Funds have made in determining that they meet this definition is that fair value is the primary measurement attribute used to measure and evaluate the performance of substantially all of its investments.

Alternative Mutual Funds

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

The Funds classify and measure financial instruments in accordance with International Financial Reporting Standard (“IFRS”) 9, “Financial Instruments”. The standard requires financial assets to be classified as amortized cost, fair value through profit or loss (“FVTPL”), or fair value through other comprehensive income based on the entity’s business model for managing the financial assets and the contractual cash flow characteristics of these assets. Assessment and decision on the business model approach used is an accounting judgement. The Funds classify investments based on both the Funds’ business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolios of financial assets are managed and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and uses that information to assess performance and to make decisions. Consequently, all investments are measured at FVTPL.

More specifically, the Funds’ investments, derivative assets and liabilities and short sales, if any, are measured at FVTPL. The Funds’ obligation for Net Assets attributable to holders of redeemable units is presented at the redemption amount. All other financial assets and liabilities are initially recognized at fair value and subsequently measured at amortized cost. Under this method, financial assets and liabilities reflect the amounts required to be received or paid, discounted when appropriate, at the financial instrument’s effective interest rate. The fair values of the Funds’ financial assets and liabilities that are not carried at FVTPL approximate their carrying amounts due to their short-term nature.

The net asset value (“NAV”) per unit is determined by dividing the aggregate market value of the net assets of the Fund by the total number of units of the Fund outstanding before giving effect to redemptions or subscriptions to units on that day.

The interest for distribution purposes, if any, shown on the Statements of Comprehensive Income represents the coupon interest received by the Funds accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds which are amortized on a straight line basis. Dividends received are recognized as income on the ex-dividend date. Dividends paid on securities sold short, if any, are recognized as an expense on the ex-dividend date. Distributions from income trusts and pooled funds, if any, are recognized when the Funds have earned the right to receive payment of the distributions. The cost of investments is determined using the average cost method.

(b) **Redeemable units of the Fund:**

Under International Accounting Standard (“IAS”) 32, “Financial Instruments: Presentation”, the Funds classify their redeemable units as liabilities. The Funds’ redeemable units do not meet the criteria in IAS 32 for classification as equity as the Funds have more than one contractual obligation to its unitholders. Investors have the right to require redemption, subject to available liquidity, for cash at a unit price based on the Funds’ valuation policies at each redemption date. Unitholders are also entitled to distributions when declared, and have the right to receive distributions in cash. Therefore, the ongoing redemption feature is not the only contractual obligation related to units.

(c) **Increase (decrease) in net assets attributable to holders of redeemable units per class unit:**

The increase (decrease) in net assets attributable to holders of redeemable units per class unit is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable units of each class by the weighted average number of units outstanding of that class during the period.

(d) **Foreign exchange:**

Foreign denominated investments and other foreign denominated assets and liabilities are translated into Canadian dollars using the exchange rates prevailing on each valuation date. Purchases and sales of investments, as well as income and expense transactions denominated in foreign currencies, are translated using exchange rates prevailing on the date of the transaction. Foreign currency gains and losses on foreign denominated assets and

Notes to Financial Statements

liabilities other than investments are presented separately in the Statements of Comprehensive Income. Foreign currency gains and losses on investments are included in the Net realized gain (loss) on investments and Net change in unrealized appreciation (depreciation) on investments in the Statements of Comprehensive Income.

(e) Income and expense allocation:

Realized gains/losses, changes in unrealized appreciation (depreciation) on investments and derivatives, income and expenses are allocated daily to each class based on the proportionate share of the net asset value of the class. The proportionate share of each class is determined by adding the current day's net unitholder subscriptions of the class to the prior day's net asset value of the class. Any income or expense amounts that are unique to a particular class (for example, management fees) are accounted for separately in that particular class so as not to affect the net asset value of the other class.

(f) Income taxes:

The Funds qualify as unit trusts under the Income Tax Act (Canada). All of the Funds' net income for tax purposes and sufficient net capital gains realized in any period are required to be distributed to unitholders such that no income tax is payable by the Fund. As a result, the Funds do not record income taxes. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset.

(g) Transaction costs:

Transaction costs such as brokerage commissions incurred in the purchase and sale of securities are expensed as incurred and are recognized in the Statements of Comprehensive Income.

(h) Currency forward contracts:

The Funds may enter into foreign exchange forward contracts for economic hedging purposes or to establish an exposure to a particular currency. Open forward contracts are valued at the gain or loss that would arise as a result of closing the position on the valuation date. Unrealized gains and losses on foreign exchange forward contracts are included in Net change in unrealized appreciation (depreciation) on currency forward contracts in the Statements of Comprehensive Income, and upon closing of a contract, the realized gain or loss is included in Net realized gain (loss) on currency forward contracts. Outstanding settlement amounts on the close out of foreign exchange forward contracts are listed in the Schedule of Investment Portfolio and are presented in the Statements of Financial Position as unrealized appreciation or unrealized depreciation on currency forward contracts.

(i) Futures:

The Funds may purchase standardized, exchange-traded futures contracts. Any outstanding futures contracts as at reporting period end date are listed in the Schedule of Investment Portfolio and are presented in the Statements of Financial Position as unrealized appreciation or unrealized depreciation on futures contracts. Any difference between the value at the close of business on the current valuation day and that of the previous valuation day is settled in cash daily and recorded in the Statements of Comprehensive Income as Net change in unrealized appreciation (depreciation) on futures contracts, and upon closing of a contract, the realized gain or loss is included in Net realized gain (loss) on futures contracts. Any amounts receivable (payable) from settlement of futures contracts are reflected in the Statements of Financial Position as Daily variation margin. Certain short-term debt instruments, as indicated in the Schedule of Investment Portfolio, may be segregated and held as margin against the futures contracts purchased by the Funds.

(j) Swap contracts:

The Funds may invest in swap contracts. The fair value of over-the-counter ("OTC") swap contracts is determined using valuation techniques which incorporate the use of observable market data such as market returns, interest rates, and credit spreads. Changes in the fair value of the swap contracts outstanding at the reporting date are

disclosed in the Statements of Comprehensive Income as Net change in unrealized appreciation (depreciation) on swap contracts. When the swap contracts expire or are closed out, the net realized gain or loss is reflected in the Statements of Comprehensive Income as part of Net realized gain (loss) on swap contracts. Outstanding swap agreements as at reporting period end date are listed in the Schedule of Investment Portfolio and are presented in the Statements of Financial Position as unrealized appreciation or unrealized depreciation on swaps contracts. Any amounts receivable (payable) from settlement of swap contracts are reflected in the Statements of Financial Position as Daily variation margin.

- (k) New standards and interpretations not yet adopted:

The Funds have determined there are no IFRS standards that are issued but not yet effective that could materially impact the Funds' financial statements.

4 Critical accounting estimates and judgments

The preparation of financial statements in conformity with IFRS Accounting Standards requires the Manager to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis.

5 Fair value of financial instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Funds classify fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly or indirectly; and

Level 3: Inputs that are unobservable.

The fair values of financial assets and financial liabilities that are traded in active markets (such as publicly traded derivatives and marketable securities) are based on quoted market prices or dealer price quotations at the close of trading on the reporting date. The Funds use the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Funds' policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The carrying value of cash, daily variation margin, receivable from brokers, subscriptions receivable, interest and dividends receivable, other receivables, bank indebtedness, payable to brokers, redemptions payable, distributions payable, management fees payable, performance fees payable and accrued expenses, if applicable, approximates their

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

fair value given their short-term nature. These financial instruments are classified as Level 2 in the fair value hierarchy because, while prices are available, there is no active market for these instruments.

Fair value measurement of derivatives and securities not quoted in an active market

For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

The Funds use widely recognized valuation models for determining the fair value of financial instruments such as future, option, forward and swap contracts that use only observable market data and require little management judgment and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, and exchange-traded derivatives, such as futures and options, and OTC derivatives such as forward contracts and swaps. The availability of observable market prices and model inputs reduces the need for management judgment and estimation and reduces the uncertainty associated with the determination of fair values.

If inputs of different levels are used to measure an asset's or liability's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement.

Classification of investments under the Fair Value Hierarchy

Equity positions (including income trusts, exchange-traded funds and limited partnerships) are classified as Level 1 when the security is actively traded and a reliable price is observable. If equities do not trade frequently and observable prices are not available, fair value is determined using observable market data (e.g. transactions for similar securities of the same issuer) and the fair value is classified as Level 2, unless the determination of fair value requires significant unobservable data, in which case the measurement is classified as Level 3.

Bonds and mortgage backed securities include primarily government and corporate bonds and mortgage backed securities, which are valued using models with inputs including interest rate curves, credit spreads and volatilities. The inputs that are significant to valuation are generally observable and therefore the Fund's investments in bonds and mortgage backed securities have been generally classified as Level 2.

Short-term investments are classified as Level 2, since they are stated at amortized cost, which approximates fair value.

Pooled fund units, if any, held as investments are classified as Level 2 as their fair value is derived from the respective fund's NAV.

Derivative assets and liabilities consist of currency forward contracts, bond forward contracts and swap contracts, which are valued based primarily on the contract notional amount, the difference between the contract rate and the forward market rate for the same currency, interest rates and credit spreads. Contracts for which counterparty credit spreads are observable and reliable, or for which the credit-related inputs are determined not to be significant to fair value are classified as Level 2.

Futures and exchange-traded credit default swap index contracts are classified as Level 1, as a quoted price is used based on observable market information.

Warrants are classified as Level 1, unless observable prices are not available. In such cases, fair value is determined using observable market data and the fair value is classified as Level 2.

6 Redeemable units of the Funds

Each Fund have three series of redeemable units offered to the public by way of prospectus: Series A, Series F and Series I units. The Funds have authorized an unlimited number of series of units and may issue an unlimited number of units of each series. All issued units are fully paid and have been recorded in the official listing of unitholders maintained by the Funds' trustee RBC Investor Services Trust. The Funds' units are sold, and are redeemable at the holder's option, in accordance with the provisions of the declaration of trust at the prevailing net asset value per unit. The Funds have no restrictions or specific capital requirements on the subscription and redemption of units.

The relevant movements are shown on the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units. However, switches between series within each Fund are excluded from Proceeds from redeemable units issued and Redemption of redeemable units in the Statements of Cash Flows. In accordance with the objectives and risk management policies outlined in Note 10, the Funds endeavour to invest subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions. Liquidity is supported by the disposal of marketable securities when necessary.

7 Taxation of the Funds

The Funds may have unused capital losses which may be carried forward indefinitely to reduce future net realized capital gains, and unused non-capital losses which may be applied against the future investment income, available for tax purposes, as detailed in the fund specific notes of each Fund.

Certain dividend, interest and security lending income received by the Funds is subject to withholding tax imposed in the country of origin. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

As at June 30, 2024 and December 31, 2023, the Funds have considered contingent tax liabilities and uncertain tax treatments, as well as interest and penalties, and determined that no amount need be accrued in respect of such amounts.

8 Related party transactions and other expenses

Management fees

Management fees may be charged by the Manager as detailed in the fund specific notes either to the Funds or directly to the unitholders. The Manager is responsible for managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements relating to the purchase and sale of the investment portfolio and making arrangements with registered dealers for the purchase and sale of units of the Funds by investors.

Performance fees

Performance fees may be charged by the Manager as detailed in the fund specific notes if applicable, either to the Fund or directly to the unitholders.

Independent Review Committee fees

In accordance with National Instrument 81-107, the Funds have in place an Independent Review Committee (“IRC”). The IRC acts for all of the applicable CC&L funds. The Funds pay a share of expenses of the IRC, as the IRC provides oversight for conflict of interest matters for the Funds. The cost of the IRC is shared amongst the funds for which the IRC provides governance.

Other expenses

The Funds are responsible for audit fees, custodial fees, securityholder reporting fees and other expenses incurred directly for the operations of the Funds.

Investments in related parties

The Funds may have investment transactions related to activities of investor funds, which are managed by the Manager or entities related to the Manager through common ownership.

9 Brokerage commissions and soft dollars

The Manager may select brokers who charge commission in “soft dollars” if they determine in good faith that the commission is reasonable in relation to the order execution and research services utilized. Soft dollars represent a means of paying for products or services provided by brokerage firms (e.g., research reports) in exchange for direction transactions (e.g., trade execution) to the brokerage. Funds’ managers may use soft dollars allocated by brokerages to pay for a portion of the total commissions owed to the brokerage.

10 Financial risk management

The Funds may be exposed to a variety of financial risks which are described below. The Funds’ exposure to these risks is concentrated in its investment holdings including derivative instruments where applicable. In determining the risks that apply, and the extent to which they apply, reference should be made to the Schedule of Investment Portfolio and supporting schedules that group securities (as applicable) by asset class, market segment and geographic region (when securities are held in multiple currencies). The Manager aims to manage the potential effects of these financial risks on the Funds’ performance by employing and overseeing professional and experienced portfolio managers that regularly monitor the Funds’ holdings, market events and overall economic conditions.

The portfolio managers use a variety of means to monitor the Funds including the measurement of specific financial and economic variables pertinent to the Funds. The Funds’ risk management program is based on monitoring compliance against investment guidelines contained in the Statement of Investment Policy (“SIP”). The SIP is an internal document that outlines how the Funds are managed. The SIP states the investment objective of each Fund and the investment guidelines. The guidelines include permitted investments, acceptable levels of diversification and the permitted uses of derivatives.

Securities are selected with the intent of maximizing returns within the risk parameters defined in the SIP. On a daily basis, these guidelines and other restrictions are monitored against the positions in the Funds using an electronic compliance system to confirm there are no violations and to ensure market movements do not leave the Funds’

portfolio holdings outside specified ranges. Corrective action is taken when necessary and any guideline violations are reported to the Manager.

The Funds may be exposed indirectly to the below risks through investments in exchange-traded funds and underlying funds.

The economic uncertainties around persistent inflation pressure, global pandemic recovery, geopolitical events, climate change and ongoing natural disasters could slow growth in the global economy. Developing reliable estimates and applying judgment continue to be substantially complex. Actual results may differ from those estimates and assumptions.

Refer to the fund specific notes for specific risk disclosures.

Currency risk

Currency risk is the risk that the value of monetary assets and liabilities denominated in currencies other than the Canadian dollar (the functional and presentational currency of the Funds) will fluctuate due to changes in foreign exchange rates. The Schedule of Investment Portfolio and supporting schedules identify all investments and derivative instruments denominated in foreign currencies. Bonds and short-term investments issued in foreign countries are exposed to that country's currency unless otherwise noted. Bonds, short-term investments and derivatives denominated in foreign currencies are exposed to currency risk as prices are converted to the Funds' functional currency in determining fair value. Foreign equities are not exposed to currency risk since they are considered non-monetary investments. Changes in the market value of these securities due to fluctuations in exchange rates are considered a component of other price risk (see below).

The portfolio manager may utilize hedging strategies at their discretion to minimize exposure to currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value of the Funds' interest-bearing investments will fluctuate due to changes in prevailing interest rates. The longer the term to maturity, all else being equal, the more sensitive a security is to interest rate risk. The Funds' exposure to interest rate risk is concentrated in its investment in debt securities (such as bonds and short-term investments) and interest rate derivative instruments (if any). Other assets and liabilities are short-term in nature and non-interest bearing.

The Funds may also hold a limited amount of floating rate debt, cash and short-term investments that expose the Funds to cash flow interest rate risk. The Funds have direct exposure to interest rate changes on the valuation and cash flows of its interest bearing assets and liabilities. However, it may also be indirectly affected by the impact of interest rate changes on the earnings of certain companies in which the Funds invest. Therefore the sensitivity analysis may not fully indicate the total effect on the Funds' net assets to holders of redeemable shares of redeemable units of future movements in interest rates.

The portfolio manager targets the Funds' duration to be within a specified tolerance of the benchmark or as otherwise specified in the SIP in order to minimize exposure to interest rate risk.

Other price risk

Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in a market.

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

Unexpected volatility or illiquidity could occur due to legal, political, regulatory, economic or other developments, such as public health emergencies, including an epidemic or pandemic, natural disasters, war and related geopolitical risks, and may impair the portfolio manager's ability to carry out the objectives of the Funds or cause the Funds to incur losses. Neither the duration nor ultimate effect of any such market conditions, nor the degree to which such conditions may worsen can be predicted.

The portfolio manager adheres to specified investment constraints in relation to asset class and diversification, thus minimizing exposure to other price risk.

Other assets and liabilities are monetary items that are short-term in nature and not subject to other price risk.

Credit risk

Credit risk is the risk that a loss could arise when a security issuer or counterparty to a financial instrument is unable to meet its financial obligations. To maximize the credit quality of its investments, the Fund's portfolio manager performs ongoing credit evaluations of debt issuers. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. Credit risk can also arise with counterparties on forward contracts and swaps. Credit risk exposure for over-the-counter derivative instruments is based on the Funds' unrealized gain of the contractual obligations with the counterparty as at the reporting date. The credit exposure of other assets is represented by their carrying amount.

The Funds measure credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At June 30, 2024 and December 31, 2023, all other receivables, amounts due from brokers, cash and short-term deposits are held with counterparties with a credit ratings either ranging from AAA to A, or not rated. Credit risk related to unsettled transactions is considered small due to the short settlement period involved. Management considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term.

Credit ratings are determined from a composite of bond rating services such as Standard & Poor's, Moody's and Dominion Bond Rating Services and are subject to change without notice.

The Funds can also be exposed to credit risk to the extent that the Funds' custodian may not be able to settle trades for cash. RBC Investor Services Trust, which is the custodian for the Funds, is approved by Canadian Securities Administrator to act as custodian.

Liquidity risk

Liquidity risk is the risk that the Funds may not be able to settle or meet its obligations on time or at a reasonable price. The Funds' exposure to liquidity risk is concentrated in the daily cash redemptions of redeemable units, which are due on demand. The liquidity of some securities held by the Funds, which may need to be disposed of in order to meet immediate or short-term obligations, are susceptible to rapid negative movements in credit markets; in particular non-government issued fixed income securities found on the Schedule of Investments Portfolio. Like all fixed income securities, the market value of these securities is based on a credit risk premium or 'spread'. The greater the credit risk associated with a security, the greater the spread demanded by holders. There is a negative correlation between the size of the spread and the value or price of the underlying security.

The Funds may also be exposed to liquidity risk through its investments in underlying funds. The underlying funds invest in the majority of their investments that are traded in an active market and can be readily disposed of to maintain liquidity.

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

The Funds retain sufficient cash, short-term investments and marketable securities that can be readily disposed of to maintain liquidity. Liquidity risk is considered negligible. The Funds' financial liabilities are all short-term in nature and are expected to mature within three months of the June 30, 2024 financial statement date, with the exception of redeemable units, which are due on demand, bonds held short and certain derivatives. All of the Fund's financial liabilities as at December 31, 2023, matured within three months of the financial statement date.

Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographic region, asset type or sector.

The portfolio manager adheres to specified investment constraints in relation to asset class and diversification, thus minimizing exposure to concentration risk.

The Schedule of Investment Portfolios of the respective Funds provide detailed information on the Funds' concentration risk exposure as at June 30, 2024 and December 31, 2023.

Capital risk management

Redeemable units issued and outstanding are considered to be capital of the Funds. The Funds are not subject to any internally or externally imposed restrictions on their capital. Each unit is redeemable at the option of the unitholder in accordance with the Declaration of Trust and entitles the unitholder to a pro rata share of the Funds' NAV. Unitholders are entitled to distributions when declared. Distributions on units of the Funds are reinvested in additional units of the Fund or at the option of the unitholder, paid in cash.

11 Investments in structured entities

The Funds have determined that all of the underlying pooled funds in which they invest are unconsolidated structured entities. The exposure to investments in underlying funds is disclosed in the fund specific notes.

The Funds have determined that all of the mortgage-related and other asset-backed securities in which they invest are unconsolidated structured entities. These securities include mortgage pass-through securities, collateralized mortgage obligations, commercial mortgage-backed securities, asset-backed securities, collateralized debt obligations and other securities that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property. The debt and equity securities issued by these securities may include tranches with varying levels of subordination. These securities may provide a monthly payment which consists of both interest and principal payments. Mortgage-related securities are created from pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. Asset-backed securities are created from many types of assets, including auto loans, credit card receivables, home equity loans, and student loans.

The Funds have determined that all of the exchange-traded funds in which they invest are unconsolidated structured entities. The Funds may invest in exchange-traded funds which provide access to the returns of stock indices, bond indices, or a basket of assets and are intended to replicate the economic effects that would apply had the Funds directly purchased the underlying reference asset or basket of assets. An investment in an exchange-traded fund is subject to all of the risks of investing in the securities held by the exchange-traded fund.

Notes to Financial Statements

June 30, 2024 and 2023 (Unaudited)

The exposure to underlying pooled funds at fair value is disclosed in the fund specific notes. The Funds' maximum loss from these investments is equal to the total carrying value of the investments. The exposure to mortgage-backed securities and asset-backed securities are disclosed in the Schedule of Investment Portfolio, as applicable, which represents the maximum exposure to losses at that date.

The Funds account for these unconsolidated structured entities at fair value. The fair value of such securities, as disclosed in the Schedule of Investment Portfolio, as applicable, represents the maximum exposure to losses at that date.

During the period ended June 30, 2024 and year ended December 31, 2023, the Funds did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

12 Securities lending

The Funds may enter into a securities lending program with its custodian, RBC Investor Services Trust, in order to earn additional income. The aggregate market value of all securities loaned by each Fund will not exceed 50% of the fair value of the assets of the Fund. The Funds will receive collateral of at least 105% of the fair value of the securities on loan. Collateral consists primarily of fixed income securities. Securities lending income reported in the Statements of Comprehensive Income is net of a securities lending charges which the Funds' custodian is entitled to receive.

13 Leverage and borrowing

Leverage occurs when a Fund borrows money or securities, or uses derivatives, to generate investment exposure that is greater than the amount invested.

Each Fund's leverage is determined by calculating the aggregate exposure through the sum of following:

- (i) the market value of the Fund's short positions;
- (ii) the amount of cash borrowed for investment purposes; and
- (iii) the notional value of the Fund's specified derivatives positions excluding any specified derivatives used for hedging purposes.

Each Fund's exposure to leverage must not exceed 300% of the Fund's NAV.

If a Fund is permitted to use leverage and engages in short selling (as stated in the Fund's SIP), the Manager will appoint one or more prime brokers as custodians. Accordingly, some or all of the Fund's net assets attributable to holders of redeemable units may be held in accounts with prime brokers. A prime broker account may provide less segregation of these assets than would be the case with a more conventional custody arrangement. Further, a prime broker may also lend, pledge or hypothecate these assets, which may result in a potential loss of such assets. As a result, these assets could be frozen and inaccessible for withdrawal or subsequent trading for an extended period of time if a prime broker experiences financial difficulty. In such case, the Fund may experience losses due to insufficient assets at a prime broker to satisfy the claims of its creditors and adverse market movements while its positions cannot be traded.
